EDUCATION

Indian Institute of Information Technology, Nagpur

Bachelor of Technology in Computer Science and Engineering

Nov 2022 – Jun 2026

Nagpur, Maharashtra

WORK EXPERIENCE

Software Development Engineer Intern

Jan 2026 – Jun 2026

VerseOdin

Remote

- Engineered core services for an automated web-intelligence platform built on a **modular microservices architecture** (Django, Scrapy, Celery, Redis), enabling fault-tolerant, **large-scale parallel data extraction** across multiple websites.
- Designed and implemented **schema-driven extraction workflows** and custom crawler logic for automated URL discovery, transforming unstructured web content into structured, queryable datasets.
- Integrated **LLM APIs (OpenAI/Gemini)** and **Model Context Protocol (MCP)** tooling into distributed scraping pipelines to power semantic content analysis and intelligent data extraction.
- Built and deployed a responsive **React/Next.js** dashboard for real-time monitoring of scraping tasks, workflow configuration, and dynamic display of extraction results via **REST API** integration.

PROJECTS

SplitEase | [Live](#) | [Code](#) | *Django, Python, PostgreSQL, Gemini API*

2026

- Architected a full-stack **financial expense-sharing platform** with Django and PostgreSQL, safeguarding user data and session integrity through **JWT authentication** and seamless **Google OAuth 2.0** integration.
- Engineered a settlement engine supporting exact, percentage, and fractional splits, applying a **greedy transaction-minimization algorithm ($O(n \log n)$)** to optimize debt resolution and reduce payment friction.
- Integrated the **Google Gemini API** to build “SplitBot,” a context-aware chatbot that analyzes real-time group balances and recent transaction histories.
- Implemented a secure, **tokenized invite system** backed by a real-time **audit log** tracking every financial transaction and member action, ensuring end-to-end transparency and traceability.

PaperChat | [Live](#) | [Code](#) | *FastAPI, React, Pinecone, Groq LLaMA 3.3 70B, Cohere*

2026

- Built a **production-grade RAG knowledge assistant** supporting PDF/DOCX ingestion with MD5 deduplication, chunking, and Cohere Embed v3 embeddings stored in Pinecone for **low-latency semantic retrieval**.
- Implemented **MMR (Maximal Marginal Relevance)** retrieval to balance relevance and diversity in document Q&A, cutting redundant context passed to the LLM.
- Engineered **real-time streaming responses** via Server-Sent Events (SSE) with a React + Vite frontend, resolving StrictMode double-streaming and CORS issues for a seamless chat experience.
- Designed a custom **LLM-as-judge evaluation framework** achieving a **0.86 score**, validating answer faithfulness and relevance across diverse document types.

AI Resume Analyser | [Live](#) | [Code](#) | *React, Node.js, PostgreSQL, OpenAI GPT-4o-mini*

2026

- Developed a full-stack AI resume-analysis tool with **React and Node.js/Express** that parses uploaded PDF resumes and delivers structured, actionable feedback via OpenAI GPT-4o-mini.
- Integrated pdf2json for robust PDF text extraction and persisted analysis history in **PostgreSQL**, enabling users to track improvements across multiple resume versions.
- Deployed the frontend on Vercel and backend on Render, configuring **environment-aware CORS** and dotenv initialization for secure, **production-ready API communication**.

TECHNICAL SKILLS

Languages: Java, Python, C++, JavaScript (ES6+)

Frameworks & Libraries: Django, React.js, Node.js, Express.js, Celery, Tailwind

Databases & Tools: PostgreSQL, MySQL, MongoDB, Redis, Docker, Git, GitHub, Postman

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Operating Systems, Object-Oriented Programming, Computer Architecture, Computer Networks

POSITION OF RESPONSIBILITY

Design Team Lead, Drama Club – IIIT Nagpur

Aug 2023 – Jul 2024

Lead

IIIT Nagpur

- Directed a **9-member design team** to deliver digital and print media for college events; recreated the club logo using Procreate and AI-based design tools for a cohesive, modern visual identity.
